Dr. T. Sudha

Pallavi as a brand has always stood for being a place that ties together both tradition and change. While tradition keeps us grounded and rooted, change is inevitable and is the way of the world. Pallavi brand has worked tirelessly for 30 years to provide holistic education to every child walking through its doors. What started as a small dream in a campus at Bowenpally is now a dream institution helping thousands of children to discover who they really are.

All of this wouldn't have been possible without the constant support and visionary thinking of our Chairman Mr. Komariah. His journey is truly an inspiring one, As a young engineer he wanted to make a difference and embarked on a journey to reform the education system. He set off on a quest to understand the teaching methods in various countries and over the years has applied these teachings in his multiple schools. The Pallavi brand now has Seven international schools, a chain of model schools and Pallavi kidz. We are extremely proud of the kind of leaders and teachers that are part of our schools. They are truly our lifeline. While we follow a standard CBSE curriculum across all campuses, we integrate it with collaborations and material from across the world to give the best learning environment to children. Our campuses are carefully planned and provide a variety of extracurricular activities, thus facilitating holistic education. Pallavians are given unparalleled opportunities and experiences that they will cherish throughout their life.

Our hope is that each Pallavian stands up as a strong human and creates a legacy of his/her own.

Our alumni are well placed in life and are now doctors, engineers, fashion designers, dancers, defense personnel, professionals from unsung and not too common careers thus depicting our unique environment. We thank every single person who has been a part of our 30-year legacy and hope that the rest of Pallavi's journey is also filled with growth, love, light, and learning. Our 30-year journey doesn't make us complacent, it rather motivates us to make some exciting changes for the future.

In honoring the past, we energize the future and celebrate the present.

Warm Regards,
Academic Director
